Amendments to the Drawings

Formal (replacement) Drawings are being submitted herewith, attached as an Appendix to this Amendment. Figure 1 has been amended to change the reference numeral referring to the block labeled WLAN PCCARD (included in WLAN device 12) from "16" to "14". This change corrects a drafting error only, and is consistent with the Specification (*see, e.g.*, page 8 at lines 15-16) and with the Examiner's suggestion in paragraph 2 of the Office Action.
